## THE STATE OF NEW HAMPSHIRE.

---

To the Inhabitants of the Town of Troy, in the County of Cheshire, in said State, qualified to vote in town affairs:

You are hereby notified to meet at the town hall in said Troy, on Tuesday, the tenth day of March next, at ten of the clock in the forenoon to act upon the following subjects:

Article 1. To choose all necessary town officers for the year ensuing.

Art. 2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

Art. 3. To raise such sums of money as may be necessary for the support of the poor.

Art. 4. To raise such sums of money as may be necessary for repairing highways and bridges, and to see if the town will vote to apply for state aid and permanent improvement of highways, in accordance with an act of the legislature of 1905.

Art. 5. To raise such sums of money as may be necessary for the public library in addition to the sum required by law.

Art. 6. To see if the town will vote to raise such sums of money as may be necessary for free band concerts the coming year.

Art. 7. To see if the town will vote and appropriate money for sidewalks.

Art. 8. To see if the town desires to take action in regard to more street lights, raise and appropriate money for the same.

Art. 9. To see if the town will vote to purchase a new road machine, raise and appropriate money for the same.

Art. 10. To hear the report of the committee on water supply

and take any action in relation thereto, or make any further appropriation.

Art. 11. To see if the town will vote to buy steel ceiling for the steamer room and repair a part of the basement of the town hall for a storage room for the road machine, plows, and tools used by the highway department, raise and appropriate money for the same.

Art. 12. To see if the town will vote to extend a pipe line from Mill street to the High School building and install three hydrants on the same for fire purposes, raise and appropriate money for the same.

Art. 13. To see if the town will vote to grant permission to the Monument Fund Committee to erect a Soldiers' Monument on the North common or any other available location on the square.

Art. 14. To see if the town will vote to buy new settees for the town hall, raise and appropriate money for the same.

Art. 15. To see if the town will vote to acquire the electric lighting system necessary to furnish the town with electricity for public and commercial purposes under the provisions of Chapter 218 of Laws of 1913, raise and appropriate or borrow money to pay for same, or act in any way relating thereto.

Art. 16. To see if the town will vote to instruct the selectmen to borrow money to pay town charges.

Art. 17. To hear the reports of agents, auditors or committees heretofore chosen and take any action in relation thereto.

Art. 18. To transact any other business that may legally come before said meeting.

Given under our hands and seal this twenty-first day of February, in the year of our Lord nineteen hundred and fourteen.

## REPORT OF BOARD OF HEALTH.

---

In the early spring there were three mild cases of scarlet fever in one family. The premises were thoroughly fumigated and there was no extension of the disease.

Recently there have been five cases in three families in different parts of the town and they are now, (Feb. 15), under quarantine. Two of the cases were pupils attending the village school and in view of the fact that many pupils were kept from school on this account, it was thought best to close the schools for three or four weeks, and also to stop the moving picture shows and other gatherings attended by children.

During the year several premises were fumigated.

MELVIN T. STONE,  
HARRY S. PLATTS,  
HENRY L. BARNARD,

Board of Health.

## REPORT OF FIREWARDS

For the Year Ending February 14, 1914.

---

There were three alarms. Two from Troy Blanket Mills, May 10 and October 22; both were handled by the mill pumps, with the aid of town firemen.

The other, the Finn hall, which had developed such headway that it was a complete loss. The department, however, saved the adjoining houses with small loss. This was on July 30.

Sixteen chimney fires were attended by the firemen.

One small brush fire on West hill.

The fire apparatus is in good order. Five hundred and forty feet of hose has been repaired and relined and one dozen extinguishers added to the department.

## REGULATIONS ADOPTED FOR THE GRADED SCHOOLS.

Scholarship—At the middle and close of each term a statement showing the progress and deportment of each pupil in the grades 3 to 8 inclusive, and high school departments shall be sent to the parents. The committee requests parents to examine the same carefully, sign and return.

Examinations—In all grades above primary there shall be frequent written reviews, and examinations shall be held at the close of each term, and in case of absence of a pupil, such pupil must pass the examination before going on with the class.

Promotions—At the end of the year, at the close of the summer term in June, each pupil whose standing, computed, from daily recitations and the regular examinations, averages for all studies 70 per cent shall be promoted to the next higher grade. A pupil whose average is less than 70 will seriously endanger his chances of promotion.

Honors—The honors of valedictory and salutatory shall be assigned upon the basis for scholarship of the last year's work.

Rhetoricals—Regular exercises in essay writing and in declamations or recitations shall be held in all grades above primary, and such exercises shall be marked same as in other studies.

## SCHOOL CALENDAR FOR 1914-1915.

Fall term, twelve weeks; September 8—November 25.  
Thanksgiving recess, two days.

Winter term, eleven weeks; November 30, 1914, to February 26, 1915. Christmas recess, two weeks; December 21—January 4.  
Vacation, two weeks.

Spring term, thirteen weeks; March 15, 1915—June 11, 1915.

---

## ROLL OF HONOR.

West Hill—Bieno H. Autilla.

Intermediate—Dorothy Fletcher, Laidi Kauppi, Margaret McGinnes.

Sub-Grammar—Jennie Kononan.

Grammar—Eva Giles.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board of Troy:

I herewith submit the fourteenth annual report of the superintendent of schools and my second annual report.

The present enrollment by school and by grades is as follows:

SCHOOLS.	GRADES.										TOTALS.
	I	II	III	IV	V	VI	VII	VIII	IX	X	
Primary—Grade I.....	44										44
Primary—Grades II and III.....		28	26								54
Intermediate.....				38							38
Sub-Grammar.....					28	21					49
Grammar.....							23	12			35
High.....									10	5	15
West Hill.....	1	2	1	5	2	2					13
Totals.....	45	30	27	43	30	23	23	12	10	5	248

### MEMBERSHIP GROWTH.

This table shows the actual number of children registered in schools on Feb. 2, 1914. Compared with last year's membership at the same time, it shows an increase of 22 children. It will be noticed by reference to the totals that no school is now seriously over-crowded, except possibly grades 2 and 3, but this is done away with in part by allowing the teachers of grades 1 and 4 to take part of the regular work of the second grade.

With the addition of the primary room in the basement, Troy has greatly increased the efficiency of the school system and improved the former over-crowded condition of the school. The new room is well lighted, heated, and ventilated and accommodates over forty children at present. The floor of the room does not rest directly on the cement bottom, but is raised to keep out dampness and drafts. Most of the desks are of the latest adjustable type. It is a room which has been needed for a long time and is indeed satisfactory.

### HEATING.

Agreeable to the votes of the last school meeting, a new heating plant has been installed, and this too has proved satisfactory. In all but the severest weather, when schools everywhere were obliged to close, the temperature could be kept at 70 degrees. I do not anticipate any difficulty in the future, for we all realize that we have just passed through the coldest and most severe winter of the past ten years.

With the growth of the grammar school, I would deem it advisable to hire a man to take charge of the grammar department. With its present high enrollment and indications that the registration will go still higher, it will be an increasingly difficult task to control and teach such a school. This change has been tried in the Jaffrey schools during the past year and has succeeded well.

During vacation time, Troy lost several good teachers, Mr. Matthews to Berlin, (N. H.) High school, Miss Gray to Beverly, (Mass.), schools, Miss Ames to Ashuelot, (N. H.) and Mrs. Goodnow by resignation. It is complimentary to the town to reflect that most of these teachers were taken by towns paying larger salaries, yet it is too bad to lose the services of teachers just as they become most useful. I propose that the board adopt a slightly higher schedule of salaries based upon education and length of service in order to keep the good teachers in our service as long as possible. This may necessitate a slight additional appropriation, but it will be well worth while in the long run.

## PALMER SYSTEM.

At the beginning of the year, a new system of handwriting was introduced into your schools. This method known as the Palmer system, has had a trial of several years in Boston and elsewhere and has been pronounced excellent. It is essentially a muscular arm movement. Only the more recent normal school graduates and a few who have practised the method can write it, but I consider that some of the rooms show good results from the method, in spite of the lack of preparation on the part of the teachers.

Under the new laws, a child must attend school until he is sixteen years old, or has graduated from the eighth grade. That is to say, a graduate of the grammar school may leave school, even if he is only fourteen, but unless he is a graduate, he must continue to go to school until he is sixteen. This is a new law passed at the last legislature and has caused some confusion and misunderstanding, resulting in one case in arrest, conviction and fine.

## MEDICAL INSPECTION.

Another act of the last legislature provides for medical inspection of school children by competent physicians. The physician or physicians, must examine every pupil, as well as the sanitation of the building and report to the school board; must test each pupil's eyesight and hearing or test for other evidences of ill health; and must decide if a pupil shows indications of a contagious disease and in case of disease, send him home. The adoption of the provisions of this act and the raising of money to carry it out are left optional with the voters of the town. It seems to me a wise law and one that ought to be taken advantage of. Of course the teachers have tried to test the children physically and have done their best, but no one will contend that a layman could do the work as well and as certain as a registered physician. I have no doubt that there are quite a number of cases of defective eyesight and defective hearing in the Troy school causing the children to repeat their courses, and these might be corrected if the act is adopted.

I note with pleasure the coming of the Y. M. C. A. to Troy. The night school is an especially commendable undertaking, and I, in common with the citizens of Troy, am glad to praise this work.

In closing I will thank those who have been helpful and inspiring to me while I helped to administrate the schools of the town, parents, teachers, scholars and school officials.

Cordially yours,

WM. L. MacDONALD,

Superintendent of Schools.

East Jaffrey, N. H., February 2, 1914.

## REPORT OF SUPERVISOR OF DRAWING.

---

To the Superintendent of Schools:

At your request I am sending you a report of the drawing done in the schools of Troy since September, 1913, and a general plan of the work to be pursued the remainder of this year.

A general plan of the work from January to June, was given in last year's report and an account of the work up to January. In June an exhibit of some of the work was held in connection with the commencement exercises and other drawings were placed about the rooms for Parent's Day.

The work this year takes up many of the same principles taught last year, but with different subjects for study. It also introduces other new work. Paints were provided for the fourth grade this year. Before this, grade three has worked with this grade, and crayons only have been used.

In September, we use the fall flowers and sedges; October provided the autumn foliage; November brought fruits, vegetables and the Thanksgiving holiday. Paint, crayon and chalk were used to illustrate these. December gave us Christmas work. Grade 1 made raffia napkin rings and Christmas folders; Grades 2 and 3 folders, cards, matchscratchers; Grade 4, court plaster cases; Grades 5 and 6, writing pads with brass corners; Grades 7 and 8, whisk broom holders. The work of the four upper grades involved the principle of design; that of the lower grades measuring and folding.

The work for the remainder of the year will consist of still life drawing, mechanical drawing, painting of spring flowers, drawing of toys, illustrating stories and Mother Goose rhymes by free hand cutting and drawing.

I wish to extend my thanks to the teachers who have assisted in carrying out the work as outlined each month; to the superintendent for his interest and to the school committee for supplying the necessary materials.

Respectfully submitted,

A. JEAN BROWN,  
Supervisor of Drawing.

## REPORT OF SUPERVISOR OF MUSIC.

---

To Mr. W. L. MacDonald, Superintendent of Schools:

Next to religion, music is said to be the most potent factor in human development. Is it then to be wondered at that we strive to give our school children a love for and an appreciation of it? Advancement in musical education is easy enough when music is given rational treatment. Here in Troy, music is recognized as a study and is put on a par with other studies, and marks are given as in other subjects. This does not mean that all the pupils are good music scholars. We find pupils defective in some branch of school work. Some are deficient in mathematical ability, a few cannot discriminate colors, some can never spell well, then there are some who have a faulty ear, and no natural time pulsations, but taken all in all intelligent pupils average well in their aptitude for music, and the backward ones are called upon to recite more frequently, and more time is devoted to them by the regular teacher.

The aim of the music department is to help the pupils to understand music so that they can listen to it intelligently as well as to be able to take an active part in it. Before this can be accomplished the pupils must always be interested in the subject.

We see the result of the individual singing method in the lower grades. This is carried on as far as Grade VII only, for it is here that the change in the voice generally occurs, and pupils feel more conscious of themselves. In this grade, and above this grade, we are getting beautiful harmony. It is quite an easy matter now to arrange a program for a short recitation period, as there are plenty of pupils who respond quickly, and require little time and drill to prepare themselves. The pupils begin to sing alone in Grade II, and by the time they reach Grade IV, each child has a song or songs which he will sing for the teacher at any time when

he is called upon. With Grade V the harmony work begins, and the pupils become interested in other lines of work, but the ability to sing alone is fixed. A large share of the success in this line of work is due to the conscientious drill of the regular teachers, and we give them much credit for making the music period so enjoyable. No study is more dependent on drill for success than music. In this respect it resembles mental arithmetic, and the progress consists as much in doing simple things well as in the attainment of the more difficult things.

The grading of the work is the same as that described in a previous report. In the primary grades imitation work, ear-training, board work, simple time exercises, dictation, interval practice, individual singing or reciting are required. Above Grade VI, the study of sacred music is taken up, while in the lower grades some simple hymn is sung each morning.

During the few weeks that the supervisor is absent in the winter the work has been steadily carried forward. The work is carefully planned for each teacher, and a record kept of all work accomplished, for the special teacher to refer to. Such procedure, instead of resulting in a loss of interest on the part of teacher and pupils, has acted as an incentive to accomplish something each week without supervision.

It requires much thought to decide what not to teach. We should aim to teach music rather than method, in a broad-minded, intelligent way, and adapt the teaching to the needs of the individual schools so that the pupils will be better equipped for life both mentally and socially.

Respectfully submitted,

LIZZIE MARIA MAYNARD.
